Flexible choices with fewer SKUs: MaxLite introduces CCT selectable outdoor lighting fixtures

WEST CALDWELL, N.J. (June 10, 2020) – MaxLite is making it easier for distributors and contractors to meet customers' outdoor lighting needs with new wall pack and security luminaires that feature field-selectable color temperatures (CCTs) that go from warm to cool with the flick of a switch.

The WallMax™ Large Cutoff Wall Pack (WPCL Series) gives customers the choice of 3000K, 4000K or 5000K in a single product. The series is available in three outputs, ranging from 4,800 to 12,000 lumens, with options for high voltage, photocell, motion sensor and battery backup, to meet varied application needs. Ideal for commercial offices, schools, and other public administrative building exteriors, the WallMax Large Cutoff Wall Pack is backed by MaxLite's 10-year warranty, labor allowance included (\$25 per fixture). The series is DesignLights Consortium (DLC) Premium listed, enabling customers to take advantage of utility rebate programs where applicable. The wall pack's contractor-friendly features include a built-in level to ensure straight mounting, and conduit holes located on the back, top and each side of the housing for easy installation. View the product page for complete product specifications at: <https://www.maxlite.com/products/wallmax-large-cutoff-wall-pack-color-selectable>

The GuardMax™ Slim Profile Security Light (SECS Series) delivers durability in an attractive design for commercial, hospitality and multi-residential lighting applications. Designed with field-selectable CCT technology (4000K/5000K) and a photocell that can be enabled or disabled to user preference, one product can replace four stocking SKUs. The luminaire's compact form factor (6 inches wide, 8.5 inches high and 3 inches deep) makes it economical and ideal for doorways, walkways, stairwells and other spaces where high quality illumination is needed. Available in three outputs from 1,900 to 3,320 lumens, the fixture accommodates for surface conduit and junction box/wall mounting. The GuardMax Slim Profile Security Light is DLC Premium listed and backed by a 5-year warranty.
